

ImageTrust + GOOGLE DOC AI & GEMINI

Unlock the Power of Google Document & Generative AI with ImageTrust Capture

ImageTrust, a modern enterprise platform designed for **high-volume document capture** and **AI orchestration** powers out-of-the-box AI-enabled digital transformation. By modernizing legacy systems and solving complex capture challenges, enterprise organizations can now drive millions of documents to Google Doc AI & Gemini for unmatched AI-powered insights and automation.

Modernize

Replace outdated, costly capture systems, with a scalable AI-enabled solution tailored for the modern enterprise.

Rapid Time-to-Value

Deliver a complete, scalable, ready to deploy solution that seamlessly leverages Google's Gemini AI, Doc AI, & Cloud Storage.

Maximize ROI

Reduce costs, improve automation, & accelerate the adoption of AI-powered Intelligence.

Why ImageTrust?

ImageTrust is purpose-built to solve the complexities of modern document capture. With out-of-the-box compatibility and an architecture designed with a seamless integration to Google Doc AI, Gemini AI, & Google Cloud, ImageTrust drives AI adoption by enabling fast, accurate, & efficient AI-driven document transformation.

- 1 **Omni-Channel Enterprise Document Capture:** ImageTrust captures incoming content (Scan, Email, Import, Mobile, & More) and routes it to Google Doc AI & Google Gemini, leveraging pre-built enterprise connections.
- 2 **AI Orchestration:** Directly feeds billions of pages to Google Doc AI & Google Gemini, unlocking advanced OCR, classification, extraction, summarization, & sentiment analysis.
- 3 **Human-in-the-Loop (HITL) Validation & Reporting:** Leverage intuitive correction, edit, and data validation workflows for low-confidence documents while gaining insight into system performance.
- 4 **Integrate & Embed:** ImageTrust easily integrates and embeds within any enterprise platform, including CRMs like Salesforce, enabling streamlined workflows and ensuring compatibility with existing infrastructure without requiring any custom development.

Proven Success at Scale: Global BPO

- **Challenge:** Drive hundreds of high speed (140+ pages per minute) document scanners through the web browser to digitize and extract accurate data from 20 million pages per day.
- **Solution:** ImageTrust + Google Doc AI & Gemini for seamless digitization, AI orchestration, & data validation.
- **Result:** Processing 2.6 billion pages annually with the highest levels of accuracy and automation.

Get Started Today!

Bring unparalleled accuracy and reliability to your document processing workflows with the combined power of Doc AI, Gemini, and ImageTrust.
